## EDUCATION

**University of Toronto**

Sep 2017 - Aug 2021

Honours Bachelor's of Science, Computer Science Major (Software Engineering Co-op), GPA: 3.46/4.0

# LOGAN CHESTER

Full-Stack Software Developer

## ABOUT

Growing up, I balanced academics with music, performing in the Victoria High School Rhythm and Blues Band and releasing an EP. After high school, I traveled to over 20 countries before earning an honours degree in Computer Science from the University of Toronto. Now, I work as a Software Engineer at BitFormations, building custom web applications for diverse clients in industries like Pharmaceuticals and Amateur Sports.

## PROFESSIONAL EXPERIENCE

**Software Engineer**

BitFormations Inc. / Remote / Sep 2021 – Present

- Led the development of web applications, including medical diagnostic tools and learning management systems, delivering scalable and maintainable solutions.
- Designed modular architectures for components and APIs based on detailed project requirements.
- Implemented production-ready, efficient code using a variety of languages and frameworks.
- Partnered with UI/UX teams to create polished, user-friendly interfaces focusing on usability.
- Conducted code reviews, enforced high coding standards, and mentored junior developers.
- Collaborated with stakeholders using agile methodologies to ensure on-time milestone delivery.

**Software Developer**

Self Employed / Jan 2020 - Present

- Designed and developed a personal financial web app to track income, expenses, and investments, resulting in 20+ user profiles, thousands of uploaded transactions, and spending habit visibility.
- Contracted and trusted to update production ski-timing software and build various company sites.

**Junior Full-Stack Developer (Co-op)**

Kontrol Energy Corp. / Remote / Sep 2020 - Dec 2020

- Worked with a development team to build a COVID-19 detection device for indoor public spaces.
- Project resulted in improved safety and a more than 100% increase in company share value.
